Executive Summary

B.Tech Information Technology graduate with hands-on experience building end-to-end software products, from identifying a user problem to designing, building, and shipping a working solution. Comfortable translating user needs into technical requirements, prioritizing features, and collaborating across design and engineering. Strong technical foundation (Python, JavaScript, SQL, web technologies) that enables clear, credible communication with engineering teams – seeking an entry-level Product Manager / APM role.

Skills

- Product Thinking & Problem Framing
- Cross-Functional Collaboration
- Data-Informed Decision Making Basic SQL Analysis
- Technical Fluency: Python, Java, JavaScript, HTML/CSS, SQL

Projects

Smart Attendance System – Facial Recognition *Python, OpenCV, Face Recognition* • Identified a recurring operational problem in classrooms: manual attendance was slow and error-prone, and defined a product solution to automate it end-to-end.

Real-Time Chat Application *HTML, CSS, JavaScript, Node.js, Socket.io* • Designed and built a live messaging platform, defining the core user flows: authentication, real-time messaging, and instant updates without page refresh.

- Iterated on the interface and interaction design based on self-directed user testing to improve usability.

Education

B.Tech, Information Technology	2022 – 2026
Mahendra College of Engineering, Salem	
CGPA/Score: 7.98%	

HSC – Don Bosco Higher Secondary School, Gedilam	2021 – 2022
Score: 75%	2019 – 2020

SSLC – Government High School, Puliur
Score: 75%

Certifications

- Python – GUVI Platform
- Experience-Based Project Learning – Naan Mudhalvan
- AI For Everyone – GUVI

Languages

- Tamil (Native)
- English (Professional Working Proficiency)
